

Please do not take any action that will eliminate or reduce the telephone solicitation control provided by the State of Indiana. This program has improved the quality of my life by virtually eliminating unwanted phone calls by computers and boiler room operations that I do now want to be able to reach me. Before Indiana enacted the Telephone Privacy law I received an average of 6 calls every evening. Now the calls have virtually stopped. The Indiana law allows consumers to choose this service so those who want to receive these calls can do so. PLEASE DO NOT TAKE THIS WONDERFUL LAW AWAY OR TAKE ANY ACTION THAT WILL REDUCE ITS EFFECTIVENESS. \

Thank you,

Bob Allen
